In the middle of the shady garden, there were many leafy trees and colorful flowers growing amongst the grass stood a blueberry bush. Bees buzzed happily and the flowers like as danced daintily in the warm sun. It was shining brightly in the clear, blue sky. Wade was strolling cheerfully around the garden. Her black eyes gazed at a beautiful butterfly. "What a magnificent butterfly", she thought dreamily, following it to the blueberry bush. Just then, a voice softly said, "Eat one of the blueberries from the bush". Confused, Wade looked all around the garden. She had no idea where the voice was coming from, or why it was telling her to eat one of the blueberries. Wade's legs started to shake. Her trembling hands had a mind of their own. They automatically reached out and picked a blueberry from the bush and put it into her mouth. Suddenly Wade started shrinking. She shrank until she reached in the new world. The voice from the bush softly echoed back again and again and said, "Walk to your left and you will see a wooden door." Wade did exactly what she was told and sure enough, she was a door to her left. With a nervous feeling in her stomach, she turned the doorknob and walked through the door. Her vision was so blurred that she could hardly see where she was. And after the time the mousing size would become Wade again and when she opened her eyes, she found herself in the world. In this world there was so much beautiful flowers and grassy land where she sits and enjoy the view. Suddenly some tiny people came which did not exist in our land. There are seven and all of them consist of different names and she liked the small one who was so cute, and his name is John. They are all very funny but after the passage of time, they told Wade that they faced some problems which was that there is no one to cook food and some issue i.e., from the reconstructing building and the main issue was the large giant which creates so many problems for them. First, Wade makes the foods by gathering different vegetables and rice that is present in their house. After half an hour she served the food and everyone full their tummy and they ate like they did not eat anything for two to three days. After serving and washing all the dishes Wade gathered all the tiny people and ordered that work with me. They all are dancing and singing and enjoy the cleaning process. When they done their work, they rest in night. Also, Wade rests with them. After the passage of time, the Wade thought about how to solve the problem of large giant. With so much thinking, Wade got an idea. She gathers all the tiny people and share her plan. They show very exciting and dancing. They all went through the giant and Wade's stood at the first position so she can manage it because when giant sleep her loud sound disturb them. The loud sound was duzzzzzzzzzzzzzzz..... Wade awakes the giant by different style, when giant awake it becomes aggression for a single moment and saw when they do their action and how they can do? They told the giant that he would disturb all the people living in it.

And they argue with so much, but the giant would not agree with her. Then they implement the next plan that the giant was hungry with so many things in front of him and offered him that eat all the things. They kept the food in the path and giant follow it and giant would reach in an untamed jungle where he no one find it and giant forget the path that where should be gone but the giant would settle their and settle their life in the untamed jungle.
